

# Learning to dive, the different options

For those (above the age of 10) who are fit for diving and have not dived before or do not have a certification; we offer you three levels of training in scuba diving. The following is a small description of each option to give you an idea.

## Discover Scuba Diving (Introduction program)

- consists of 3 lessons:  
i.e. an exercise session, an easy dive session at the House Reef and a boat dive! \*
- consists of a basic diving theory briefing.
- includes all necessary diving equipment and a participation card.
- will give you a credit if you want to continue, i.e. the first two dives are identical to the ones of the Scuba Diver- and Open Water Course and you will not have to repeat these dives if you sign up for either of these courses within one year of completion.
- will allow you to dive within two weeks after completion, to a maximum of 12 m, under the guidance of a Divemaster, Assistant Instructor or Instructor.

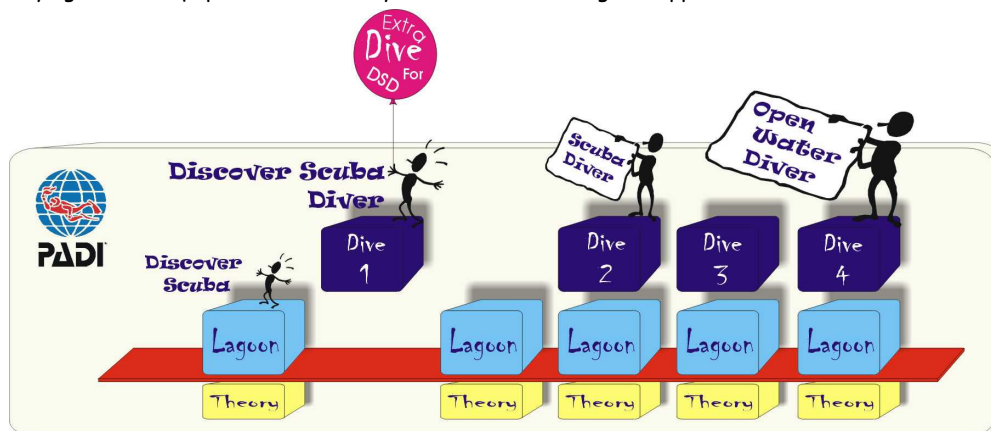

## Scuba Diver Course (Licence course)

- consists of 5 lessons: 3 exercise sessions at the House Reef and 2 boat dives\* with exercises.
- consists of 3 dive videos & theory sessions with quizzes.
- includes all necessary equipment, the course manual (rental), a logbook and a certification card.
- will give you a credit if you want to continue your diving education, i.e. these five lessons are identical to the first 5 of the Open Water Diver course and you will not have to repeat these lessons if you sign up for the Open Water Diver course.
- will allow you after certification to dive to a maximum of 12 m, under the guidance of a Divemaster, Assistant Instructor or Dive Instructor.

## Open Water Diver Course (Licence course)

- consists of 9 lessons: 5 exercise sessions at the House Reef and 4 boat dives\* with exercises.
- consists of 5 dive videos & theory sessions, quizzes and a final exam.
- includes all necessary equipment, the course manual (rental), a logbook and a certification card.
- will make it possible to enroll the PADI Advanced Open Water Diver course or other PADI Specialties.
- will allow you, after certification, to dive to an advised depth of max. 18 meters together with another certified diver. (Restrictions are only established by local governments and/or diving centers.)

Check with one of our instructors for more information or to book your first lesson! We will assist you in trying out the equipment that suits your needs and arrange an appointment . . . to start!!
